Railroad Commission of Texas

1701 North Congress

Austin, Texas 78701 USA

Wednesday, September 12, 2007

8:00 a.m. - 4:00 p.m.

FREE REGISTRATION AT WWW.PROPANE.TX.GOV

For 2007, the Texas Propane Technology Forum remains international in scope, and its goals are unchanged: to showcase innovative LPG technologies that will build propane sales, and to foster discussion of new technologies among marketers, users, manufacturers and research organizations. Attendees will learn about a broad range of new residential, agricultural, commercial and industrial technologies and will meet the engineers and entrepreneurs who are developing and commercializing these new applications.

Registration for the Forum is free of charge. To register online, visit AFRED's web site at www.propane.tx.gov. The site also has a map to the event and hotel information.
